the White House than Mt. Pleasant (see D. C.
maps) and is a most dangerous competitor to
that section. Why are the owners of property
in Columbia Heights and Mt. Pleasant so exercised about Fort Myer Heights? Because they
are awake to the fact that more new electric
railroads have been constructed through our section in last few years than all other suburbs
around Washington, which has brought our property in direct competition with theirs. Besides,
they realize that prices in Columbia Heights
have reached the top and offer no more attractions to the shrewd speculator, while prices in
our section are in their infancy (8c. to 20c. a sq.
ft.) and our property has a brighter future today
than Columbia Heights had when lots sold there
at our pressent prices. See The Star of June 20,
official information about new memorial bridge,
which will unite our property to the business
center of city. Remember, the new court house
by act of Va. legislature has recently been constructed in our subdivision. Lots are selling
right along. Get in on the ground floor, as prices
will soon be raised. Size of lots, 50x100 to 200x

No Discrimination in Exchange. Governor General Davis of Porto Rice has issued a stringent order against dis-criminations in exchanges in that island. The terms of the order are that no person engaged in business in Porto Rico, whether a money changer, merchant or employer, shall make any discrimination in exchanges of any kind of American money for Porto of any kind of American money for Porto Rican silver for merchandise or for services. American gold and silver coin, national bank bills and treasury notes have under the order the same current value, and are to be received and paid out at their face value in all official and private transactions. If a lower rate is made or demanded in exchanges of American paper money than is made or demanded for American gold or silver money the offending party or parties will be brought to trial before a United States provisional court, and, on conviction, subjected to a fine of \$100.
